The Art of Prompt Crafting: A Useful
Guide to Creating Non-Boring AI Art
with DALL-E!

START

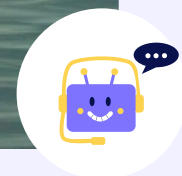

👁️ How Do I AVOID strange creatures appearing in my AI ART?

Maybe don't bring them UP?

Clarity: Clear and concise descriptions are essential.

Specificity: Remember details like style, subject, and colors.

Creativity: Let's see your unique and imaginative input.

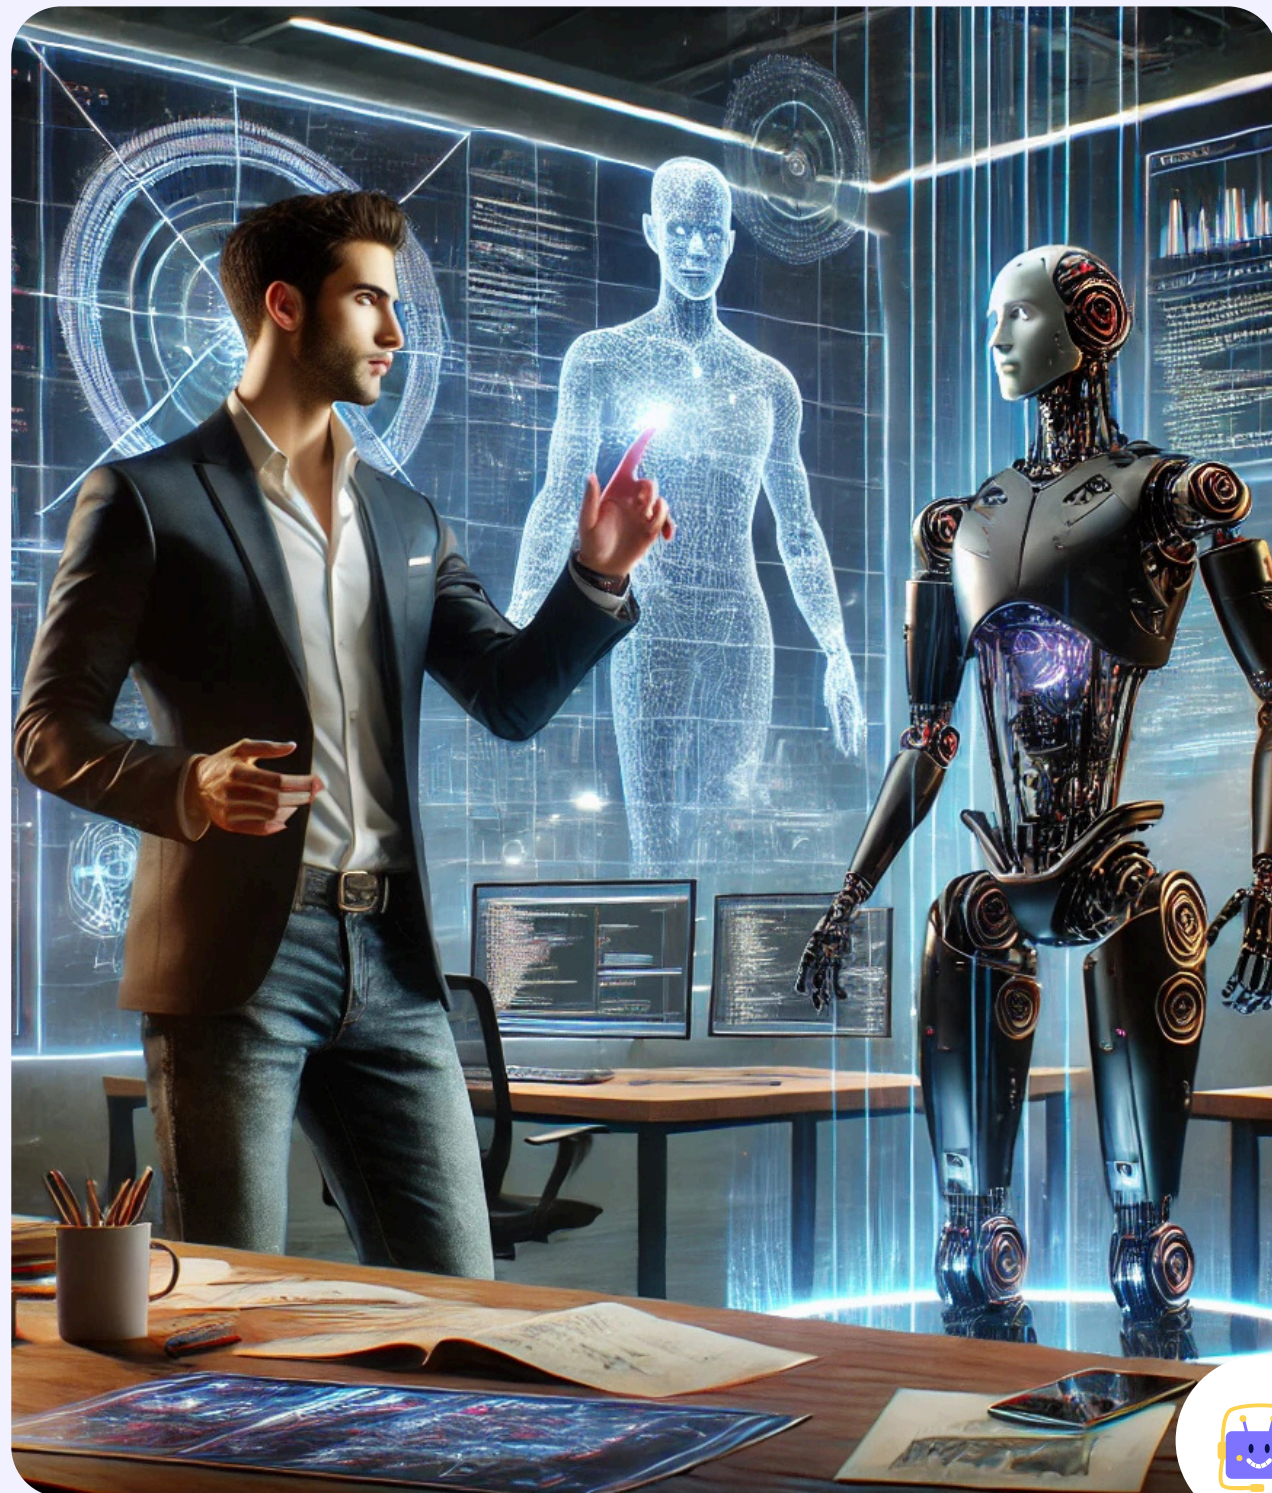

🧠 What happens when you kind of think through your prompt:

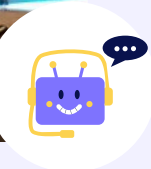

Check out this PROMPT

what i need is a younger virtoso tall dark and handsome collaborating in this nature with a robot virtuoso

Argh! This looks like I am talking to the I-Robot movie and that's scary!!!

can they be arm and arm looking at camera with minimalist background?

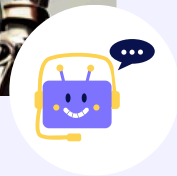

Argh this looks worse because I'm suddenly an Abercrombie and Fitch model and the I-Robot robot guy and I are in some kind of relationship??

👤 What happens when you dial in the prompt language:

ok now have him look like a teacher and have the robot look more retro like the short circuit movie

OK this “may work” but **what I really need** is a good logo style of design as a solid intro for my course presentation!

🧠 What happens when you are concise and specific:

OK I need a guy standing next to a robot that is more like a logo

Don't be afraid to

SAY WHAT YOU NEED!

What happens when you push the limits and have fun!

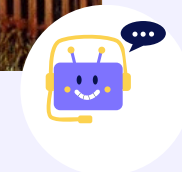

Check out this PROMPT

now i need more rainbows and galaxies and eliminate the train bridge and include spaceships

What am I trying to communicate?

👁️ What would you add to make this subject in the photo prompt more specific to your coursework or needs?

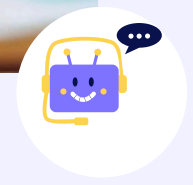

Check out this PROMPT

I am conducting a course on training how to prompt but am doing this for elderly who are not very adept at computers and need the logo for this

Option 2 is pretty cool as well!
